INVASIVE PLANTS AND NOXIOUS WEEDS

The following information is from the Province of BC website: www.for.gov.bc.ca/hra/Plants/aboutIP.htm

Invasive plants are those plants that do not occur naturally in ecosystems in British Columbia. They pose a threat to our native environment and are recognized globally as the second greatest threat to biodiversity.

Invasive plants are spread mainly by humans in the movement of whole plants, seeds, burs or root pieces; as horticulture products or on transported goods; by machinery and vehicles, and even on footwear, clothing or pets. Soil erosion, over-grazing, off-roading and other forms of soil disturbance can further spread these invaders. In addition, spread occurs by wind, water, livestock and wildlife.

Invasive plants are capable of producing thousands of seeds per plant, which may lie dormant for many years. They pose a very real threat to the continued existence of many of our native species and the biodiversity of our environment.

Japanese knotweed

The presence of invasive plants can cause environmental and/or economic harm, and some species can harm human health.

They are extremely aggressive, reproduce rapidly, and often out-compete crops and native vegetation.

STAGE 1 WATER RESTRICTIONS ARE IN EFFECT MAY 1ST TO SEPTEMBER 30TH EACH YEAR

During Stage 1 restrictions:

- i) an even numbered address may water on even numbered days between the hours of 4:00 a.m. to 10:00 am and 7:00 pm to 10:00 pm.;
- ii) an odd numbered address may water on an odd numbered day between the hours of 4:00 a.m. to 10:00 am and 7:00 p.m. to 10:00 pm. You may:
 - (i) water trees, shrubs, flowers and vegetables on any day with a sprinkler during the prescribed days and hours for Stage 1 and on any date at any time if watering is done by hand-held container or a hose equipped with a shut-off nozzle;
 - (ii) water newly planted trees, shrubs, flowers and vegetables by any method during installation and within the following 24 hours;
 - (iii) use Micro-irrigation or Drip-irrigation systems to water trees, shrubs, flowers and vegetables at any time on any day;
 - (iv) under the authority of a Permit, water new sod on installation and during the first 21 days after installation, and water newly seeded lawns until growth is established or for 49 days after installation, whichever is less, but only during the prescribed Stage 1 lawn watering hours;
 - (v) water all-weather playing fields at any time if failure to do so will result in a permanent loss of plant material; and
 - (vi) wash a vehicle with water using a hand-held container or hose equipped with a shut-off nozzle and at car dealerships or commercial car washes.

You may not waste water by allowing a tap or hose to run unnecessarily or by overwatering plants or lawns. A \$100 fine may be imposed for violations of Water Conservation Bylaw 06-2005.

FEEDING BEARS EVEN UNINTENTIONALLY IS AGAINST THE LAW IN BC

DO NOT PUT YOUR GARBAGE OUT THE NIGHT BEFORE !

A fed bear is a dead bear. Most people are not aware of their role in the destruction of bears. If humans allow bears to access non-natural food sources such as garbage, they help to create "problem" bears. In most cases, "problem" bears must be destroyed because they damage property and are a potential threat to human safety.

Bears take advantage of whatever food that is available in their home range.

They are attracted by: > Sights > Sounds > Memories > Smells

- Keep garbage inside
- Pick the fruit, pick up windfalls
- Store pet food indoors
- Compost responsibly
- Remove unwanted fruit trees
- Keep your barbeque clean

BE BEAR SMART
