**GWA'SALA-'NAKWAXDA'XW FIRST NATIONS
TSUNAMI SIREN TEST**

THE GREAT BRITISH COLUMBIA SHAKEOUT!

On October 19 at 10:19 am, millions of people worldwide will practice how to "Drop, Cover and Hold On" during Great ShakeOut Earthquake Drills. British Columbians can join by registering for the 2017 Great British Columbia ShakeOut. REGISTER AT: www.shakeoutbc.ca/register/

DROP to the ground (before the earthquake topples you!) Take **COVER** by getting under a sturdy desk or table, and **HOLD ON** until the shaking stops.

WHY SHOULD YOU PARTICIPATE???

While potential earthquake hazards depend on your location, everywhere in British Columbia is considered at high risk in relation to the rest of Canada. For example, on January 26, 1700, a magnitude 9 earthquake (similar to the 2011 Tohoku earthquake off the coast of Japan) shook the entire province as well as Washington, Oregon, and California, and generated a massive tsunami.

What we do now will determine our quality of life after our next big earthquake. Are you prepared to survive and recover quickly?

The Great British Columbia ShakeOut is an annual opportunity to practice how to be safer during big earthquakes: "Drop, Cover, and Hold On." The ShakeOut has also been organized to encourage you, your community, your school, or your organization to review and update emergency preparedness plans and supplies and to secure your space.

PICKLEBALL PICKLEBALL!

Pickle ball is a paddle game played using a perforated, slow moving ball over

a tennis type net on a lined court. The rules are simple and the game is easy for beginners to learn!

GIVE IT A TRY!

Pickle Ball lines have been completed at the Tennis Courts. Equipment is available for rent at the Recreation Center Desk. Equipment Rental cost: \$2.00 per person. Game rules are available at the Recreation Desk and online at www.pickleballnow.com/rules.

WINTER DRIVING IS COMING!

Winter tires are required on most highways.

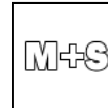

Drivers must obey winter tire and chain signs throughout the province from October 1 to March 31. The Province of BC recommends drivers install mountain/snowflake tires for cold weather driving and, for extreme conditions, carry chains.

Check your tires for at least one of these symbols:

◆ The 3-peaked mountain and snowflake symbol on the side of the tire. These winter tires offer the best traction on snow and ice, and in cold weather. Also known as mountain/snowflake or alpine.

◆ The mud and snow symbol on the side of the tire. These winter tires offer better traction than summer tires, however, they are less effective than 3-peaked mountain and snowflake tires on snow and ice, and in cold weather.

◆ MS, M&S, Mud and Snow symbol tires are the legal requirement. This includes All Seasons if they have the symbol on them.

- ◆ The Province recommends the snowflake symbol for winter conditions.
- ◆ All winter tires must have 3.5 mm of tread remaining to be considered winter tires.
- ◆ Tires that are worn have reduced traction and should not be used in winter weather.
- ◆ Matching winter tires: You must have at least 2 matching winter tires on the primary drive axle. It is recommended to use 4 matching tires on the four outside corners of the vehicle - even when driving a 4X4 vehicle. Mixing tires with different tread patterns, internal construction and size compromises stability and should be avoided.
